Dollar General

If your community has a new Dollar General, it's possible Metis built it. Over the last few years, Metis has built 70+ Dollar General Stores in Ohio, Illinois and New York. All new stores go through a lengthy approval process and must meet the architectural guidelines of the municipality in which they are built. Store sizes range from 8,700 sq ft to 10,640 sq ft depending on the community and can take anywhere between 90 to 120 days to build.
