

Construction services
Girl Scouts Camp
Ledgewood
Peninsula, Ohio

Metis has enjoyed a long relationship with the Girl Scouts of North East Ohio. Camp Ledgewood in Peninsula has been transforming over the past 3 years and Metis has had the privilege of being a part of this transformation. Starting with the unit houses and cabins, moving on to the troop houses and finally the construction of the new infirmary and program center which was completed in October of 2019. While the early phases of this project were in the more traditional design-bid-build method of delivery, the Program Center and Infirmary were constructed under a GMP method.
